PROFESSIONAL PROFILE

- Results-driven Computer Science graduate with expertise in software development, data analysis, and emerging technologies. Combines technical skills with teaching experience to deliver comprehensive technology education.
- Proficient in full-stack development, business intelligence tools, and machine learning applications with strong academic foundation in computer networks and distributed systems.

TECHNICAL COMPETENCIES

Programming Languages	Python, JavaScript (ES6+), C/C++, Java, Solidity
Web Development	React, Next.js, Node.js, Express, HTML5, CSS3/Tailwind
Data Analysis & BI	Power BI, Pandas, NumPy, SQL, Excel
Machine Learning	Scikit-learn, TensorFlow, Algorithm Design
Cloud & Networking	AWS, Computer Networks, Distributed Systems
Database Systems	MySQL, PostgreSQL, MongoDB
Blockchain	Smart Contracts, Hardhat, Ethers.js
Teaching Areas	Programming Fundamentals, Data Structures, OOP

PROFESSIONAL EXPERIENCE

 **Computer Science Tutor** 2024 - Present

Amonto Girls Academy Secondary School — Juba, South Sudan

- Teach programming concepts using C, C++, and JavaScript
- Introduce students to data analysis and visualization using Power BI
- Guide students through web development projects using modern frameworks

 **Data Entry Intern** Jul 2023 - Sep 2023

Office of the Prime Minister (Uganda) — Refugee Registration Desk

- Managed and maintained refugee registration database systems
- Processed and verified data for 500+ refugee records
- Assisted in generating reports for government agencies

ACADEMIC PROJECTS

 **Blockchain Voting System** [Solidity, React, Node.js]

 github.com/Thonpeter/Blockchain-Voting-System

- Developed secure decentralized voting application using blockchain technology
- Implemented smart contracts for vote recording and tallying

 **Business Intelligence Dashboard** [Power BI, SQL]

- Designed interactive dashboard for retail sales analysis
- Integrated multiple data sources and implemented advanced visualizations

EDUCATION

 **Bachelor of Science in Computer Science**

2019 - 2024

University of Nairobi

Second Class Honors (Upper Division)

- **Relevant Coursework:** Machine Learning, Cloud Computing, Network Security, Business Intelligence & Analytics, Data Structures, Computer Graphics
- **Thesis:** "Decentralized Students eVoting System with Blockchain"

CERTIFICATIONS & TRAINING

-  **Introduction to DHIS2** 2025
-  **Algorand Blockchain Developer** 2024
